Build → Team up → Get mentored → Win → Earn

# UNI CONNECT

“A campus-native ecosystem where students discover teammates, build projects, learn skills, and receive meaningful mentorship and guidance — empowering seniors and faculty to earn by helping others, all from their college login.”

# PROBLEM STATEMENT

PROBLEM NO 7.

–Open innovation for college students

Despite interest in hackathons and project building, students face major barriers:

- Difficulty finding committed and compatible teammates
- Lack of structured guidance from mentors or experts
- Limited access to tools, tutorials, and resources
- Earning platforms demand advanced expertise — students lack a space to earn using their developing hackathon and project skills.
- Skill gap between coursework and real-world tech requirements
- Students understand problems deeply, but lack support to execute solutions

---

There is a strong need for a collaborative platform where skills, ideas, and opportunities come together.

# PROPOSED SOLUTION

Uni-Connect bridges the gap by providing a smart collaborative ecosystem that empowers students to learn, build, and grow together.

Uni-Connect helps students learn → build → collaborate → earn.

1

- Fine-tuned AI chat bot for learning, idea building & progress tracking

2

- Smart networking platform within campus connecting
  - student to student
  - student to mentor
  - student to industry professionals

3

- Platform-hosted hackathons for beginners to get experience & earn profile badges

4

- Skill & tool development services to turn students into industry-ready builders

5

- “Earn by helping” system for experienced students & professionals to earn via support & mentorship

6

- Hackathon discovery enabling students to find and participate in competitions easily

#### ◆ Project Building Tools Hub

Provides quick access to tools, tutorials, and tech resources needed to build projects without confusion.

#### ◆ Skill Recommendation & Guidance

AI suggests what skills to learn next and guides users in preparing pitch decks and project documentation.

#### ◆ Student Collaboration Network

Enables students to find teammates based on skills and experience, earn badges, ratings, and grow their profile — with the opportunity to become a mentor later.

#### ◆ Mentor & Industry Professional Connect

Students can receive expert guidance from professionals; premium users can get personalized mentorship throughout their project.

#### ◆ Hackathon Discovery Dashboard

Shows upcoming hackathons and lets clubs or organizers promote events directly on the platform.

#### ◆ Problem Statements Library + Hackathon Simulator

Gives access to past problem statements and a practice arena where students can solve mock hackathon challenges and get AI-generated feedback.

## KEY FEATURES

Uni-Connect HackVerse addresses all fundamental needs of a hackathon learner and builder:

Uni-Connect brings all hackathon essentials to one platform — project tools, AI-based skill guidance, teammate matching, and access to mentors and industry experts. Students can discover upcoming hackathons, practice with real problem statements through a simulator, and receive AI feedback, helping them learn, build, and grow with the right support at every stage.

A top-down view of a desk with various items: a laptop, a cup of coffee, a pen, a notebook, glasses, and a plant. The text "THANK YOU" is centered in the middle of the image.

**THANK YOU**
